Key Benefits of Smart Water

Finding solutions to this unsustainable challenge is urgent and cannot be deferred any further,” said Mr Leon Basson, the Chairperson of the committee. The committee was informed that as of June 2024 the municipal debt to water boards is at **R22.36 billion** with an average increase of 151% between 2019 to 2024.

When the well is dry, only then will we know
the value of water. – Benjamin Franklin
